## PROFILE SUMMARY

**Backend-focused** Full Stack Developer with hands-on experience in building scalable web applications using Node.js, NestJS, and MongoDB. Strong in designing REST APIs with pagination, filtering, and structured error handling, along with optimizing MongoDB queries using aggregation and indexing. Experienced in LMS-based systems, file processing (Excel/Word), and improving application performance using caching techniques like Redis.

## EDUCATION

- Master of Computer Application (MCA)**  
Tezpur University, Assam  
Year: 2024 | CGPA: 7.98
- Bachelor of Computer Application (BCA)**  
Mahatma Gandhi Kashi Vidyapeeth University, Varanasi  
Year: 2022 | Percentage: 74.9%

## WORK EXPERIENCE

- Hubblehox** | Jr. Full Stack Developer | Mumbai Jan, 2025 – Present
- Designed and developed scalable REST APIs with pagination, filtering, and structured error handling for LMS platform.
  - Implemented user session tracking to resume audio, video, and PDF content from last viewed position, improving user experience.
  - Optimized MongoDB queries using aggregation pipelines and caching techniques to enhance performance and data retrieval efficiency.
  - Built backend modules using NestJS with clean architecture, and implemented Excel/Word file processing for bulk operations and automation.
  - Enhanced frontend using Next.js and Material UI, while collaborating in Agile (Jira) sprints, deployments, and technical documentation.
- BVG INDIA** | Field Officer | Mumbai Sep, 2024 – Jan, 2025
- Developed internal tools and automated operational processes improving workflow efficiency.
  - Built responsive dashboards using React.js and MySQL
  - Integrated APIs and resolved cross-functional technical issues.
  - Contributed to technical documentation and reporting systems.

## PROJECTS

- E-Commerce Website** | MERN, Redis, JWT, Bcrypt | [Link](#) Aug, 2024 – Jan, 2025
- Built a **secure e-commerce platform** with JWT authentication and RBAC (Role-Based Access Control).
  - Implemented Redis caching, reducing API response time by 40% and improving system performance under load.
  - Integrated **Formik + Yup** for form validations ensuring data accuracy.
  - Designed **scalable frontend UI** using React Context API & Chakra UI.
  - Designed APIs with pagination, filtering, and proper status/error handling for scalable backend operations.
- Cab Booking System** | MERN, Redux, Stripe, Antd | [Link](#) Jan, 2024 – June, 2024
- Developed a **cab booking application** with real-time updates and secure **REST APIs**.
  - Integrated **Stripe payment gateway** with MongoDB persistence, reducing transaction latency by 30%.
  - Implemented **role-based login & authentication** for drivers and customers.

## SKILLS

---

- **Backend:** Node.js, NestJS, Express.js, REST API Design
- **Frontend:** React.js, Next.js, Redux, Material UI, Bootstrap, HTML5, CSS3
- **Databases:** MongoDB (Aggregation, Indexing), MySQL, Redis
- **Authentication:** JWT, Bcrypt
- **Programming:** Typescript, JavaScript, Java, SQL
- **Operating Systems:** Windows
- **Tools & Version Control:** Git, Bitbucket, Jira, Postman
- **Data Handling:** Excel/Word integration, JSON/ CSV parsing
